

MCI has placed syllabus for NEET-UG on its website from 22nd July 2011 onwards and sought feedback from relevant stakeholders. The deadline for receipt of feedbacks was 11th August 2011. As of midnight of the deadline, 1,970 feedbacks were received. Of these, 171 were junk mail or were not related to NEET-UG. There were representations from all over the country from several states. The feedbacks (n=1799) were examined and summarized as follows:

| S.No | Item | % | Remarks |
|------|---------------|-------|--|
| 1 | Syllabus | 37.76 | Most (90%) questioned why human physiology and some portions of plant physiology were missing from the syllabus. Rest suggested to reduce the topics of chemistry and physics that are not relevant to medical stream. |
| 2 | Timing | 31.80 | Suggested that because of very short time for preparation, the NEET-UG exam should be conducted beginning from 2013 or beyond |
| 3 | Language | 13.90 | Suggested that as per usual practice of State CET exam, the paper should be in regional language as about 30-40% study 10+2 in local language medium. In this category, more 81.6% were from State of Gujarat and rest from Andhra Pradesh, Tamil Nadu, West Bengal. |
| 4 | Miscellaneous | 16.54 | Feedbacks were related to the following: <ul style="list-style-type: none"> • Agreed with the syllabus and indicated that it was correct to exclude human physiology as it is not dealt extensively in state level syllabi. • Requested for paper structure and weightage for topics in each subject • Requested reading material as per the syllabus to enable better preparation. |
